EXPERIENCE THAT COUNTS.

Staging Concepts, Inc. takes great pride in offering the finest in ornamental railing. The new ornamental railing division, Railing Concepts, engineers, manufactures, and installs rails to your design requirements. In addition to railing systems, we also offer lightweight portable performance stage platforms, seating risers and accessories to customers worldwide. We have provided superior product solutions for stadiums, arenas, convention centers, theatres and production companies, as well as educational, worship and governmental organizations, since 1990.

UNMATCHED QUALITY.

Our company continuously consults with designers and architects around the world, ensuring that we are always at the forefront of technology and that our products are second to none. And because our in-house design team consists of many seasoned engineers, we have the expertise to produce superior and advanced custom designs that perfectly fit our clients' needs.

Equally important, our products are constructed with only the highest grade materials available, including 6061-T6 aluminum alloy. These materials provide excellent strength and durability. It is all of these factors combined that catapults our railing solutions to the top of our industry.

OUR PEOPLE MAKE IT HAPPEN.

Staging Concepts' ornamental railing is manufactured at our facility by our experienced fabrication team. Not only are we proud of our hard-working staff in our manufacturing shop, but our labor-saving techniques have established Staging Concepts as the industry leader in efficiency, both in our facility and during installation. Be assured that everyone at Staging Concepts — our administrative, sales, design, project management and fabrication staff — is committed to ensuring that our equipment always meets and exceeds customer expectations.

With the superior features and quality of our equipment, combined with our commitment to customer satisfaction and our dedicated employees, Staging Concepts offers the best value in the marketplace.

COUNT ON THE COMPANY YOU CAN TRUST.
